

Application Instructions

- View the PDF version of the application on this [link](#) before starting your application.
- **Type your answers in a [Word document](#) before proceeding to the online application form.**
 - This ensures you have your application saved in a Word version before proceeding with the online application.
 - In the event you run into issues submitting this online application, you are able to re-start using the answers you have saved in the Word document.
- **SOAP Headquarters encourages you to complete the application at one time to ensure you do not run into technical issues.**
- Completing the Application in More than One Sitting:
 - You can start the application and return using the same link you received **ONLY** if you are using the same computer, remain at the same IP address, are using the same Wifi connection, and your computer does not delete your cache.
 - This means if you choose to complete the application in more than one sitting, you **CANNOT** start the application and resume it at another location.
 - E.G. You are unable to start your application at home and then continue it at work.
 - Please be aware that some institutions may have security measures that will not allow you to return to your original application due to clearing computer cache, clearing browser data, etc.
 - To save your answers before you leave the application, make sure you select "next" at the bottom of the page.
 - You **MUST** use the same computer and WIFI when returning to finish and/or make edits to your application.
 - If you choose to complete the application in more than one sitting and are unable to get into your original online application in Survey Monkey, you will need to create a new submission.
 - Please inform SOAP headquarters soap@soap.org if this happens so that we can delete the original incomplete application.
